

Technical data for frame 1 - corner

Mitre-cut for installation with the worktop.

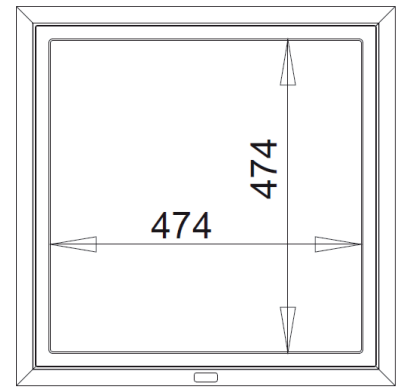

The upper plastic shelf is visible.

- Planning dimensions 650 x 650mm
- Worktop depth ≥ 600 mm
- Outer frame dimension 580mm
- Extension distance 496mm - when extended, keep a distance of at least 200mm in all directions from other cabinets!
- Shelf load: max. 10kg at the top, max. 15kg at the bottom
- Can also be used in handleless kitchens
- **Attention!** As the Qanto is positioned directly against the wall, the thickness of the niche panel should be taken into account when planning!
